

Sun care

Protect, Hydrate & Restore like never before!

Solar Defense Solutions! Sun and Blue Light exposure, whether direct or indirect, can cause your skin irreparable damage and in some cases, can lead to melanoma. If you are longing for complete solar and blue light protection, or after-sun repair, Pevonia's Sun Care Line specifically and effectively addresses your needs so you can enjoy the outdoors while avoiding the sun's harmful rays.

WHAT DOES IT DO?

- ☀ Face & Body SPF 40
- ☀ UVA/UVB protection
- ☀ Blue Light Shield protection
- ☀ Hydrates
- ☀ Prevents sunburn
- ☀ Reduces hyperpigmentation
- ☀ Crucial indoor/outdoor protection
- ☀ Suitable for ALL the family

WHAT IS IN IT?

Argan Oil
Deeply repairs and restores skin pliability, highly moisturising, de-ageing.

French Rose
Soothes, reduces irritation, calming.

Aloe Vera
Ideal for sunburn recovery, repairs skin damage, hydrates, protects, soothes and cools.

Water Lily
Ideal for sunburned skin as it calms skin pain, soothes and reduces irritation.

Green Tea
Reduces irritation, soothes, and calms skin and sunburn, laden with vitamins, antioxidant properties.

Hyaluronic Acid
From sugar beets, intensely hydrating, skin smoothing, de-ageing, protective.

Ginseng Root
Reduces irritation, repairs and protects the skin. Assists in neutralising the side effects of artificial light (blue) emitted by modern electronic displays.

Chamomile
Contains flavanoids (botanical antioxidants) that work against irritation and discomfort

Zinc Oxide
Physical sunscreen agent, natural mineral, protects the skin from the sun, soothes.

Titanium Dioxide
Physical sunscreen agent, natural mineral, reflects and scatters UV rays off the surface of the skin.

DID YOU KNOW?

Up to 50% of the world's coral reefs have already been lost or severely damaged? Scientists predict that all corals will be threatened by 2050 and that 75% will face high to critical threat levels. At Pevonia we believe it is our responsibility to create products that are made with great respect for nature. That is why our products are sustainably sourced, free from harmful chemicals with biodegradable formulas that will not harm the earth when discarded. Our Hydrating Sunscreen not only protects you but it also protects our precious oceans and reefs.

WHAT IS BLUE LIGHT?

Blue light is the light ray of the blue spectrum that exists in wavelengths emitted from everyday electronic devices. It's also known as Artificial Visible Light, or High Energy Visible Light. It is present everywhere in our modern life such as TVs, smartphones, computer screens and more. If exposed to blue light for a long time, it can disturb sleep or damage vision. Blue light also has a negative impact on skin causing premature ageing and disorders of pigmentation.

Pevonia has developed their new mineral-based sunscreen formula that contains:

- ☀ only safe ingredients, like Titanium Dioxide and Zinc Oxide (never nanoparticles)
- ☀ contains also botanical ingredients to support skin wellness and thorough protection
- ☀ features Pevonia's proprietary SunShield technology with a potent four-fold protective action, safeguarding the skin from Sunburn, Accelerated Ageing, Hyperpigmentation and Dehydration caused by continuous exposure to UV, infrared, and blue light rays.

HOME CARE TIPS

- ☀ Apply your sunscreen to your exposed skin before applying your moisturiser, whether remaining indoors or venturing outside.
- ☀ Whilst it is advised to avoid sun exposure during the first trimester of pregnancy, all 3 Pevonia Sun Line products are safe to use sparingly during pregnancy.
- ☀ Always re-apply your sunscreen after 40 minutes of swimming or perspiring, immediately after towel drying, at least every 2 hours.
- ☀ Both the Phyto-Aromatic Mist and the After-Sun Soothing Gel are ultra-refreshing if cooled in the fridge before use.

Who Should Use It?

Recommended for complete face and body protection for all skin types and all ages. For all skin types suffering from sunburn or photo-damage, sensitivity, premature ageing or hyperpigmentation.
